- Maintenance of machine-park or process

We also propose maintenance contracts on your machine-park or any automated installation, quarterly, semi-annual or annual contract, with a number of hour proportional to the importance of the machine-park , (interessant time rate); we guarantee an intervention 7 days a week, 24heures out of 24 and 365 days per year, in order to avoid and bearing block as fast as possible all production stopping (preventive maintenance) prejudicial for your company. We, of course, intervene also on your request even you have or not a maintenance contract with our company.

- Personnel rental service

A.M. Automation also proposes the hiring of qualified personnel in the sectors of electricity (average and low tension) and automatism, for contracts of more or less long duration, including, of course, the support and effectiveness of our internal service (service of personnel hiring which can be cumulated or form integral part of a maintenance contract). Do not hesitate to contact us for further information.
