Turnover evolution

2013	5.787.109,65 €
2014	5.823.753,76 €
2015	6.198.069,86 €
2016	6.794.345,90 €
2017	8.091.522,96 €

Our development is based on the constant desire to offer customized transport and logistics solutions, which have gradually grown to embed both planning and executing transports with our own vehicles and with those of our subcontractors, as well as handling and storing of freight in transit.

TRANSGOR LOGISTIK Fleet

Using owned fleet, as well our network of partners and subcontractors from East-Europe, we are always concerned about making a rigorous selection of transportation, offering tailored and safe transport and logistics solutions for our customers.

Subcontracted fleet numbers more than 100 trucks used for regular traffic.

Owned fleet numbers 18 trucks.

For automotive industry we use mega trailers with lifting roof and tautliners with metallic insertion.

Regularly we do the maintenance of the trucks in accordance with the producer recommendation to avoid potential technical issues during the transport. For partners we have in automotive industry we prefer to use new trucks.

In case of urgency situations of a truck defection:

- we have a contract with SCANIA Service mobile
- In maximum 24 hours we can change the tractor to continue the route, in case of impossibility to make the service at place.

24/7 GPS tracking trucks.

INTERNATIONAL TRANSPORT

With over 20 years of experience in international freight forwarding and freight transport, TRANSGOR LOGISTIK team builds and consolidates long term partnerships, creating a business environment based on trust, ethics and professionalism.

TRANSGOR LOGISTIK provides international road transportation services covering a wide range in particularly between Romania / Hungary / Rep. Moldavia and all countries in the European Union.

- FTL / LTL / groupage / for general and ADR goods
- Express all over EU
- Goods insurance and customs

We are involved in several important regular traffics from the automotive field, working for important companies as General Motors, Delphi, Bosch, Continental, Yazaki, Valeo, and others.

TRANSGOR DISTRIBUTION NETWORK

Starting with 2011 we have developed our own national distribution network by working with local partners to fulfill our customers request to offer efficient transport solution for small palletized consignments (1-4 pallets) with a predictable cost and transit times.

Through our three regional HUB's from Iasi, Cluj-Napoca and Bucharest, we cover the entire Romanian territory offering Economy (48h – 72h delivery time) for cost efficiency and Premium (24h delivery time) for urgent deliveries.

From Iasi HUB we have regular line to Rep. of Moldavia, with distribution from Chisinau.

Flexibility is one of our strengths since we can handle pallets with different weight and size, up to 1500kg and maximum dimensions of 450 x 240 x 250 cm.

Using both our own truck fleet, as well of our partners and subcontractors, we are able to offer different capacities from 1,5To to 22To and on request equipped with lift without additional costs. We have adapted solutions for deliveries in any area inside the cities.

Total control of the shipments using a real time truck & trace system.

Electronic scanned proof of delivery (POD).

Competitive costs for consignments with more than 4 pallets.

**TRANSGOR
STORAGE**
